

Aneostrus

**A
World Wide
Threat
Mostly Due
To
Mineral
Deficiency**

CUMIN

**To overcome Aneostrus & Infertility recommed Cumin.
An Ideal & Proven Tested Combination of Essential Minerals
Enriched with Copper & Cobalt in Right Proportion.**

- Manganese** - Deficiency reduces conception rate & causes aneostrus in cattle.
- Copper** - Deficiency creates secondary reproductive symptoms of failure of estrus, delayed conception & infertility.
- Zinc** - Is closely associated with reproduction.
- Ferrous** - Deficiency complicates anaemia.
- Selenium** - Deficiency causes decreased fertility & birth of dead offspring.
- Cobalt** - Deficiency causes secondary failure of estrus & delayed onset of puberty in cattle.
